

“For me, the forums on the Tax Club website are invaluable. As a sole practitioner, working alone from home, it can be difficult to access reliable tax advice, or even just to ask an opinion on a particular issue. Having the forums there makes this much easier.

Another aspect which I like is that I don't need to go through the rigmarole of finding a tax expert, explaining the situation, negotiating a fee, ensuring my client is prepared to pay the fee, etc, etc. I can just pop onto the forums and say “What does anyone think about this?” Similarly, if I have a particularly complex issue which cannot be fully addressed on the forums, it is a great place to find an expert and then follow it up offline.

I would totally recommend the use of the forums to any tax club member. They are helpful, friendly and very efficient. Well done Tax Club!”

Cara Chapman

Introduction from the Chairman

Hello, my name is Tim Good and I am delighted to chair the Tax Club. When lecturing I always encourage accountants and tax advisers to share their ideas and systems to improve their practices. Since its launch, the Tax Club has proved to be the place for tax advisers and accountants to get together to share and learn best practice in all that they do.

At the time of writing there are already over 1400 accountants and advisers who have signed up to join the Tax Club (which was launched on 1st October 2009) and I'm looking forward to working with those and many more members in the future.

One of the things I enjoy is discussing tax issues and answering queries from members on the Tax Club Forum, access to which is only one of many membership benefits.

I look forward to meeting you at a Tax Club event in the near future.

Tim Good

January 2011

Why you will want to become part of the Tax Club

For a very modest investment of **just £120 + VAT** per person per annum you will get access to:

- **Free newsletter** - This regular Tax Club Bulletin contains ideas, tax planning tips, advice, success stories and best commercial practice from fellow tax professionals and much, much more to help you build a more profitable tax practice. The Tax Club Bulletin will usually be issued 4 times a year.
- **Free website** - The member-only website, www.MyTaxClub.co.uk, contains even more tax planning tips, tools, videos and success stories.
- **Free members forum** - A powerful online forum to get your technical and commercial questions answered free of charge by a team of the UK's leading tax experts (including Tim Good, Giles Mooney, Stephen Burwood, Peter Rayney, Andy Wells and Michael Blake), as well as by your fellow members.

- **Invitations to the regular regional events** - Member-only events across the UK (which means there will be one near you) will provide you with the opportunity to learn the very latest tax tips. They will also provide a forum to learn from what other tax professionals are doing to get excellent results. Note that there is a nominal booking fee of approximately £35 to cover the costs of running the events.
- **Free software** - as a special introductory offer you will receive a Tax Club copy of one of the UK's leading remuneration planner software tools. This software tool will allow you to calculate the best way of extracting profits for your corporate clients, including dividend, bonus, interest on loan accounts and more as well as producing a detailed report at the click of a button.
- **Professional Tax Update** - Do you sometimes feel swamped by the amount of technical material to read? Professional Tax Update summarises in just over a dozen pages the latest tax technical developments so that you can quickly get an overview of what is happening in the world of tax. And because it is emailed to members of the Tax Club it will contain links to the originating articles or tax cases if you do need that extra level of detail. The technical focus of this newsletter makes it the perfect complement to the commercial focus of the Tax Club Bulletin you receive four times per year.
- **Discounts and special offers** - As a member of the Tax Club you will receive unique discounts and offers from a range of sponsoring partners.
- **Free tax systems** - when Tax Club members attend a regional Tax Club event they will receive at least one completely free tax system. Each system is a step-by-step process for implementing a tax planning idea, including links to standard letters, Excel-based software tools, checklists, technical briefings and excerpts from appropriate HMRC manuals. The systems help you to identify tax planning opportunities, systemise the process to improve efficiency and price/package the service to maximise your profitability.

At the time of writing Tax Club members have been eligible to receive several systems including introducing a corporate partner to a partnership, reclaiming Class 4 NIC where there are "sleeping partners", disincorporation using ESC C16 and complete systems and guidance for dealing with Entrepreneurs Relief.

How to become a member of the Tax Club

To become a Tax Club member simply go to www.mytaxclub.co.uk and register. Membership is payable online by Credit or Debit Card, and you will get immediate access to the Tax Club.

Alternatively, you can complete the following with your details, and we will complete the first part of your registration for you. We will then email you once you are registered, so that you can complete your subscription.

Yes please, I want to become a member of the Tax Club. **My details are:**

My full name.....

My firm.....

My address.....

My telephone number.....

My email address.....

My chosen password* (so I can login to www.mytaxclub.co.uk).....

*Your password should be between 7 and 16 characters.

Please fill in the form and send to:

Tax Club, 7 Midland Way, Barlborough Links, Barlborough, Derbyshire S43 4XA Tel: 0845 226 2377 Fax: 0845 226 2373

Here's what one Tax Club member recently wrote...

Just thought I would drop you a quick note to say thank you very much for establishing the Tax Club. It has already made a hugely valuable contribution to our practice and provided excellent value for money in this respect.

The forum has provided us with access to highly respected opinions from some of the renowned experts in the field of taxation and even more importantly has allowed some leverage commercially by the provision of various systems which allow opportunities to be maximised. A prime example of this has been the "Class 4 NIC on sleeping partners" system which has provided a 'package' with real commercial potential. All from one posting on the forum! You have exceeded my expectations already.

We very much appreciate what Tax Club has offered us and we would encourage you to keep up the good work.

Yours faithfully

Ian Main
